

## PARISH COUNCIL RISK MANAGEMENT

Each Council should have in place a system to help it to manage risk. This system will be simple for the smallest parishes and more complex for larger parish and town councils. A council's internal auditor may use this risk management system to help to identify what tests to carry out as part of the audit.

Risk management is important. The failure to manage risks effectively can be expensive in financial terms and also in terms of service delivery. Most Clerks will already be assessing and managing risks in some way or other but there may be room to improve and document existing practices.

Members are ultimately responsible for risk management because risks threaten a council's ability to achieve its objectives. The Clerk should therefore ensure that members should:

- Identify the key risks facing the council
- Evaluate the potential to the council of one of these risks taking place; and
- Agree measures to avoid, reduce or control the risk or its consequence.

Every council is different and there is no such thing as a standard list of risks. There are however a number of common themes that are likely to emerge. These might include:

- Physical assets – buildings, equipment, IT hardware etc.
- Finance – banking, loss of income, petty cash etc.
- Injury to the public – in playgrounds and recreation grounds, in village halls, at burial grounds etc
- Complying with legal requirements – agendas and minutes, burial records, etc
- Councillor propriety – declarations of interest, gifts and hospitality etc

The Clerk needs to consider each of the possible risks under each of the identified schemes. For example physicals assets could be lost as a result of fire or flood, damaged by vandals, stolen or simply deteriorate through lack of maintenance. All these risks can be minimised or transferred by various means such as taking out insurance, securing alarms or by regular inspection and maintenance. In addition to identifying risk, it is a good idea to make a judgement about likelihood of the risk occurring and its potential impact. Classification need be no more complicated than high, medium or low.

There are three main ways of managing risk:

- Take out insurance
- Work with another party to reduce the risk; or
- Manage the risk yourself.

**SIMONBURN PARISH COUNCIL  
RISK ASSESSMENT AND MANAGEMENT 2016**

<b>Area</b>	<b>Risk</b>	<b>Level</b>	<b>Control (<i>and agreed improvements</i>)</b>
<b>Assets</b>	Protection of physical assets	L	The War Memorial, two parish notice boards, three seats and car park lease– Cover up to <b>£10,000</b>
